Available in All Colors)

FABRIC

In addition to being **Berry Amendment Compliant** (of domestic origin and production), the woven materials used in North American Rescue's CCRK® line are the highest quality and most durable fabrics meeting military specifications.

MIL-DTL-32439 500D CORDURA | With over 45 years of proven rugged service, Cordura fabric features solution-dyed military colors with near infrared signature reduction, excellent strength-to-weight ratio, polyurethane coating for water resistance and enhanced resistance to abrasion, punctures, tears and tensile failures.

A-A 55301 T-3 PALS/MOLLE Webbing | Solution-dyed nylon with near infrared signature reduction. High quality webbing is critical to the integrity of military load bearing equipment for attachment points. Military specification nylon webbing is used for its strength, durability and chemical resistance.

MIL-PRF-5038 T-3 Binding Tape | Binding tape protects unfinished cloth edges from fraying, protects sewn seams, improves overall product life and appearance inside and out. 1" Nylon Binding Tape is utilized.

THREAD

Use of **high quality thread** called out for in load bearing military applications

V-T-295 T-2 C-A Thread, Nylon, Size F (92) | Optimal thread strength, size and characteristics to provide the most rugged seam terminations and load bearing bartacks and triple/box X stitching.

A-A-55126B T-2 C-1 Velcro® Brand Hook and Loop | 100% Nylon Woven Hook 88 & Loop 1000 military grade specification. One of the most versatile used combinations available with a great peel strength and durable under many use cycles. Proven technology for over 50 years.

HARDWARE

- **Ghillie-Tex IR Signature Reduction Hardware**
- **A-A 55634 T-1 Reverse Bail Slider**
- **MIL-C-5040 550 Cord Zipper Pull**
- **NASM 16491 T-1 C-3 Grommet**
- **NASM 27980 Snap Fastener**
